

How are the BC College of Physicians & Surgeons standards on chronic pain impacting your practice?

Take part in a University of British Columbia **10-minute confidential on-line survey** and let us know how the standards have impacted your pain management. The study cannot identify you so your answers and comments are confidential. This survey will also help Pain BC plan education useful to you and identify resource needs in communities.

Click [here](#) to fill out the study survey

Results will be available on this website when the study is complete.
